

The background of the advertisement is a composite image. On the left, there is a tall, silver metal oil drilling rig against a clear blue sky. On the right, there are several white wind turbines of varying heights. In the foreground, two large yellow mining trucks with large black tires are parked on a dirt surface. The overall scene is set in an open, outdoor environment.

FD CANNECT™

Wireless access and remote monitoring

When it comes to maintenance and downtime prevention, there has never been a substitute for being there...until now.

FD FLODRAULIC™

Real-time information in the palm of your hand

CONNECT

MAINTAIN

DIAGNOSE

REPAIR

Detailed equipment diagnostics to maximize efficiency and minimize cost

Reporting

- Custom reporting
- Data exporting
- Smart Phone apps
- Gadgets
- Ad-hoc or scheduled report delivery
- Alert notifications

Know where your machines are, what they are doing and whether they are operating at peak performance.

Simple and convenient to use, the revolutionary new CANnect™ utilizes GPS and modem hardware to make it possible for you to see, fix or prevent issues with your machinery without being there.

Smart Phone Apps

Gadgets allow you to have up-to-the-minute asset information right in your browser and are available for Web Center.

The Near Me™ Smart Phone app gives up-to-date asset information while you're on the move.

- Receive and acknowledge alerts
- Quickly determine equipment health at a glance
- Installation and test tool
- Search for specific assets and get current status
- Available on iPhone®, iPad®, Android™ and Blackberry™

Online Applications

The richness and depth of the on-line Web Center applications give you the power to make smart decisions from real time equipment information. Whether it's a regional or fleet view of alerts or drilling down to the details on one machine, the Web Center applications are designed for ease-of-use.

Gadgets

Gadgets allow you to have up-to-the-minute asset information right in your browser and are available for Web Center.

Personalized Reporting

CANnect™ offers a flexible reporting engine. Your reports are tailored to display only the information you need, the way you want to see it.

Want to see information in your own business system software? CANnect™ can transfer the data and deliver the right information to the right person at the right time.

24-Hour Service Support

Because your business doesn't stop at 5 p.m. – neither does ours. Call our 24-hour service line for immediate support.
